Activity Report on 'Women Entrepreneurs: Breaking the Gender Stereotypes. May 28, 2021

Internal Quality Assurance Cell (IQAC) team of our Vivekananda College has been organising a webinar series on Women Empowerment. This is, yet, another chapter in the series and the theme is 'Women Entrepreneurs: Breaking the Gender Stereotypes.'

This webinar was held on May 28, 2021 (Friday) at 2.30 pm. The invited speaker was Mrs. Rita Sengupta- a freelance consultant. She was the former director of NIESBUD (National Institute of Entrepreneurship and Small Business Development, Ministry of Skill Development and Entrepreneurship, Government of India). She has 34 years of experience in training, research, and consultancy in Achievement Motivation, Entrepreneurship Development and Education, Motivation and Excellence, Women Empowerment, Livelihoods and Micro-enterprise, Training Pedagogy, and Impact Assessment. Mrs. Sengupta has worked very closely with the Women Spring Board Programme of British Council and designed and delivered a program on Gender Equity through Entrepreneurship Development in more than 12 universities. Currently, she is the consultant with Rajiv Gandhi Foundation and visiting advisor to NIESBUD.

In her very engaging presentation, she highlighted that in order to bridge the gender gap in primary and secondary education, in their earnings, in their political participation and in decision-making, perception and thinking about women's productive and reproductive roles need to be changed. Gender mainstreaming is very important. Women empowerment shall be possible when women realise the power within. One way of doing so is through entrepreneurship. It is a process and experience which is learnt. It is a conviction which is to be internalised. It is a continuous process which works at two levels: external and internal (refers to your passion and self-fulfilling strategy).

Women enter into entrepreneurship due to multiple reasons, viz., economic factors, want to utilise their educational qualifications, due to husband and family support, availability of

71

time and money, desire to be independent, and for personal satisfaction. Psychology plays a major role in entrepreneurship development. The stages involved are:

- Crisis helps in developing a passion to do something
- Identity Search (What to do?)
- Identity Formation (Who Am I?)
- Identity Establishing- includes women entrepreneurs breaking the conventional mind-set, balancing of roles, equal participation, economic urge, and internal locus of control.
- Triggering an action through positive self-concept and through developing of competencies (occupational competencies, social skills, operational and management skills, networking, empowering, sustenance and coping)
- Future Planning (taking feedback, use of intuition)

Mrs. Sengupta pointed out that there is women domination in food industries, handicrafts, and services sector but now they are also entering into the masculine business-like construction, transport, etc. Times are evolving and the government needs to do serious thinking about gender roles.

The webinar was concluded with a vote of thanks and with quotes of Ms. Nooyi and Ms. Kiran Majumdar Shaw.

The session proceeded with a welcome address by Dr. Vanita Sondhi, Convenor, Internal Quality Assurance Cell, Vivekananda College.
